SKILLS

I am a budding software developer with a keen interest in Python, validated by my certification from W3Schools as a Python Developer. Although I'm in the early stages of my IT journey, I've already embarked on hands-on projects, which can be viewed on my GitHub at www.github.com/pybm/projects. These experiences underscore my commitment to learning and my enthusiasm for practical application. My adaptability, foundational Python skills, and proactive approach to self-directed learning set me apart as I seek to further immerse myself in the tech world through an internship. I thrive in both individual and collaborative environments and possess a keen ability to dissect complex situations and design effective solutions.

CERTIFICATIONS

- **Python Developer** - W3Schools
- <https://verify.w3schools.com/1O1OQJOMF2>

LANGUAGES
